

Week 4: Interface (Part 1)

PUCD 2125 Section F, Spring 2018

product as functionality | product as information

Strategy

product as functionality | **product as information**

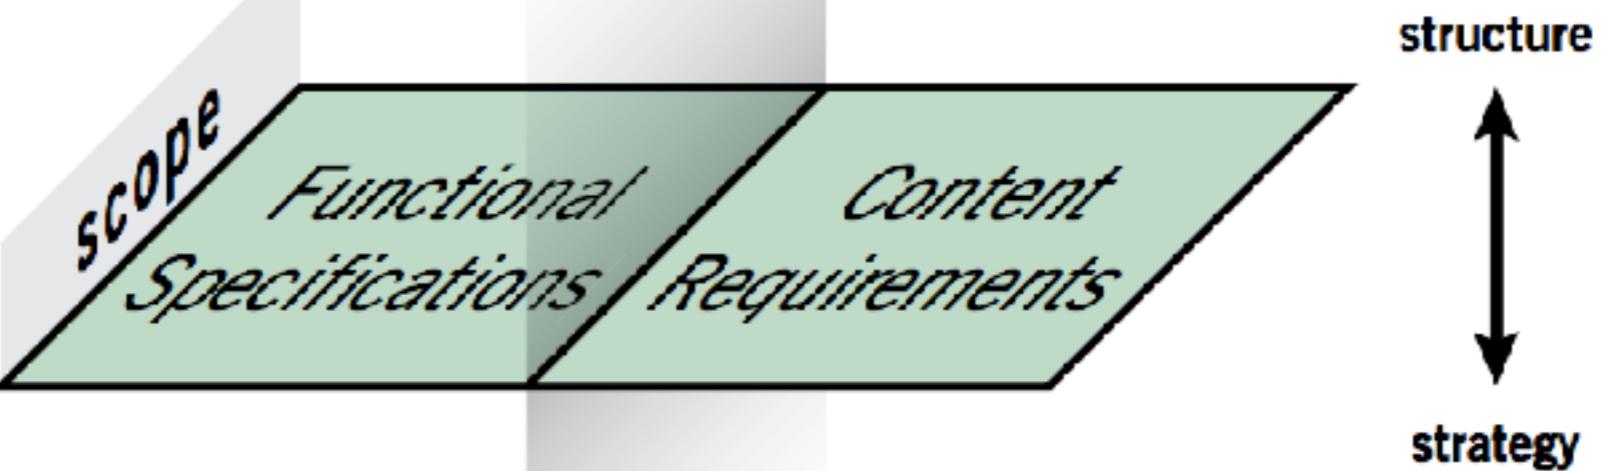

Why are we designing
and building something?

Who are we designing and
building something for, and
what are their needs?

Scope

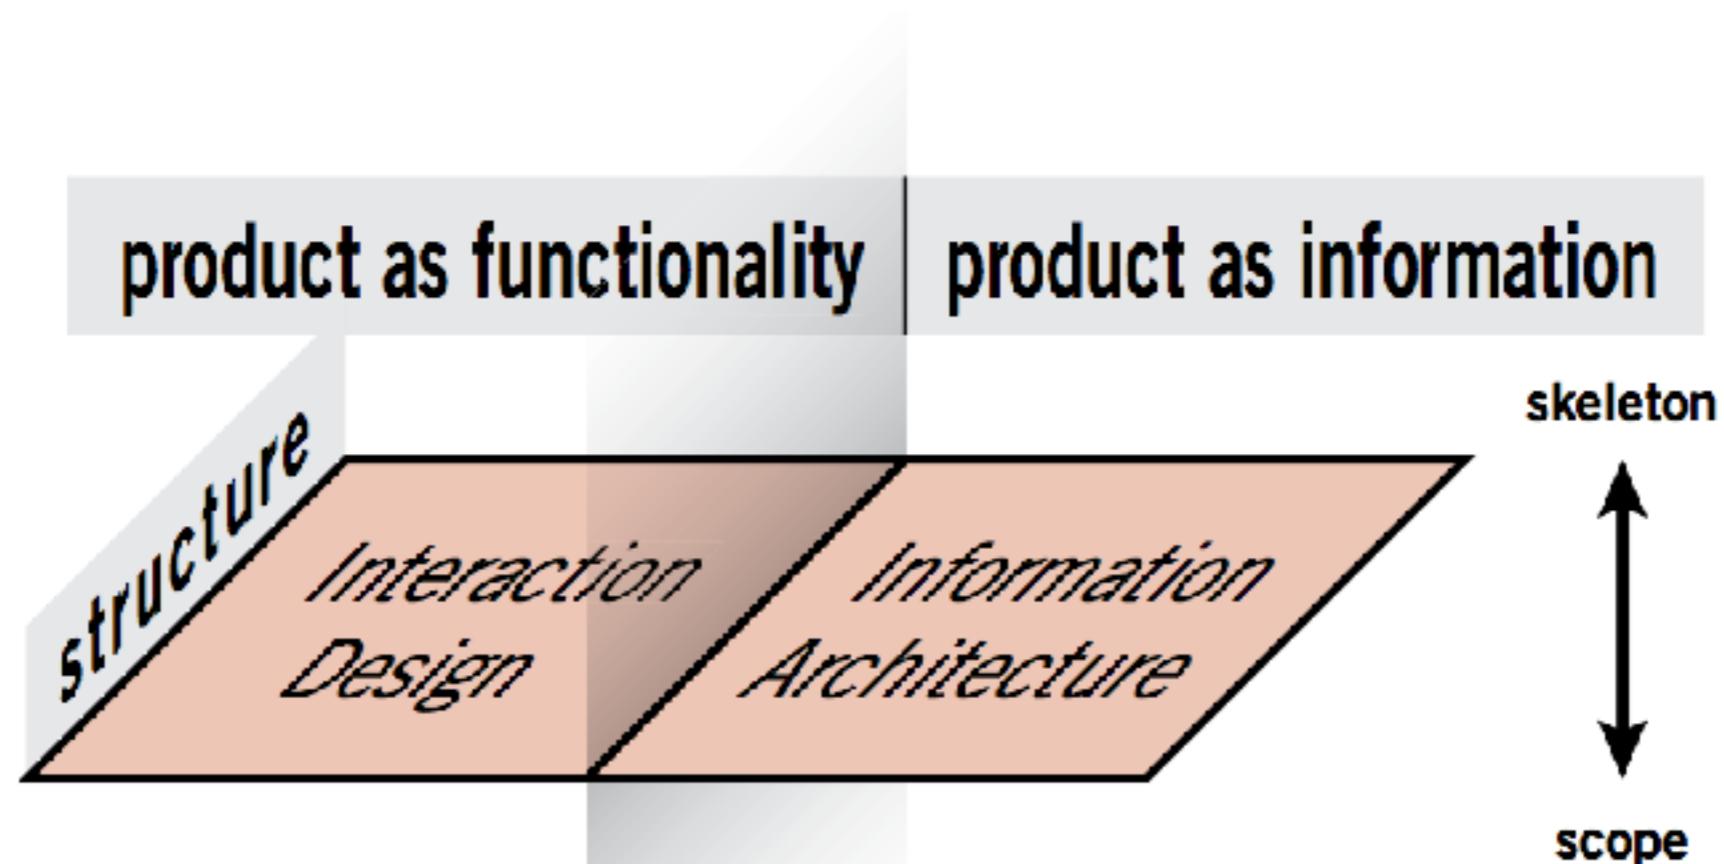

product as functionality | **product as information**

What are we making?

Functionality & Content

Structure

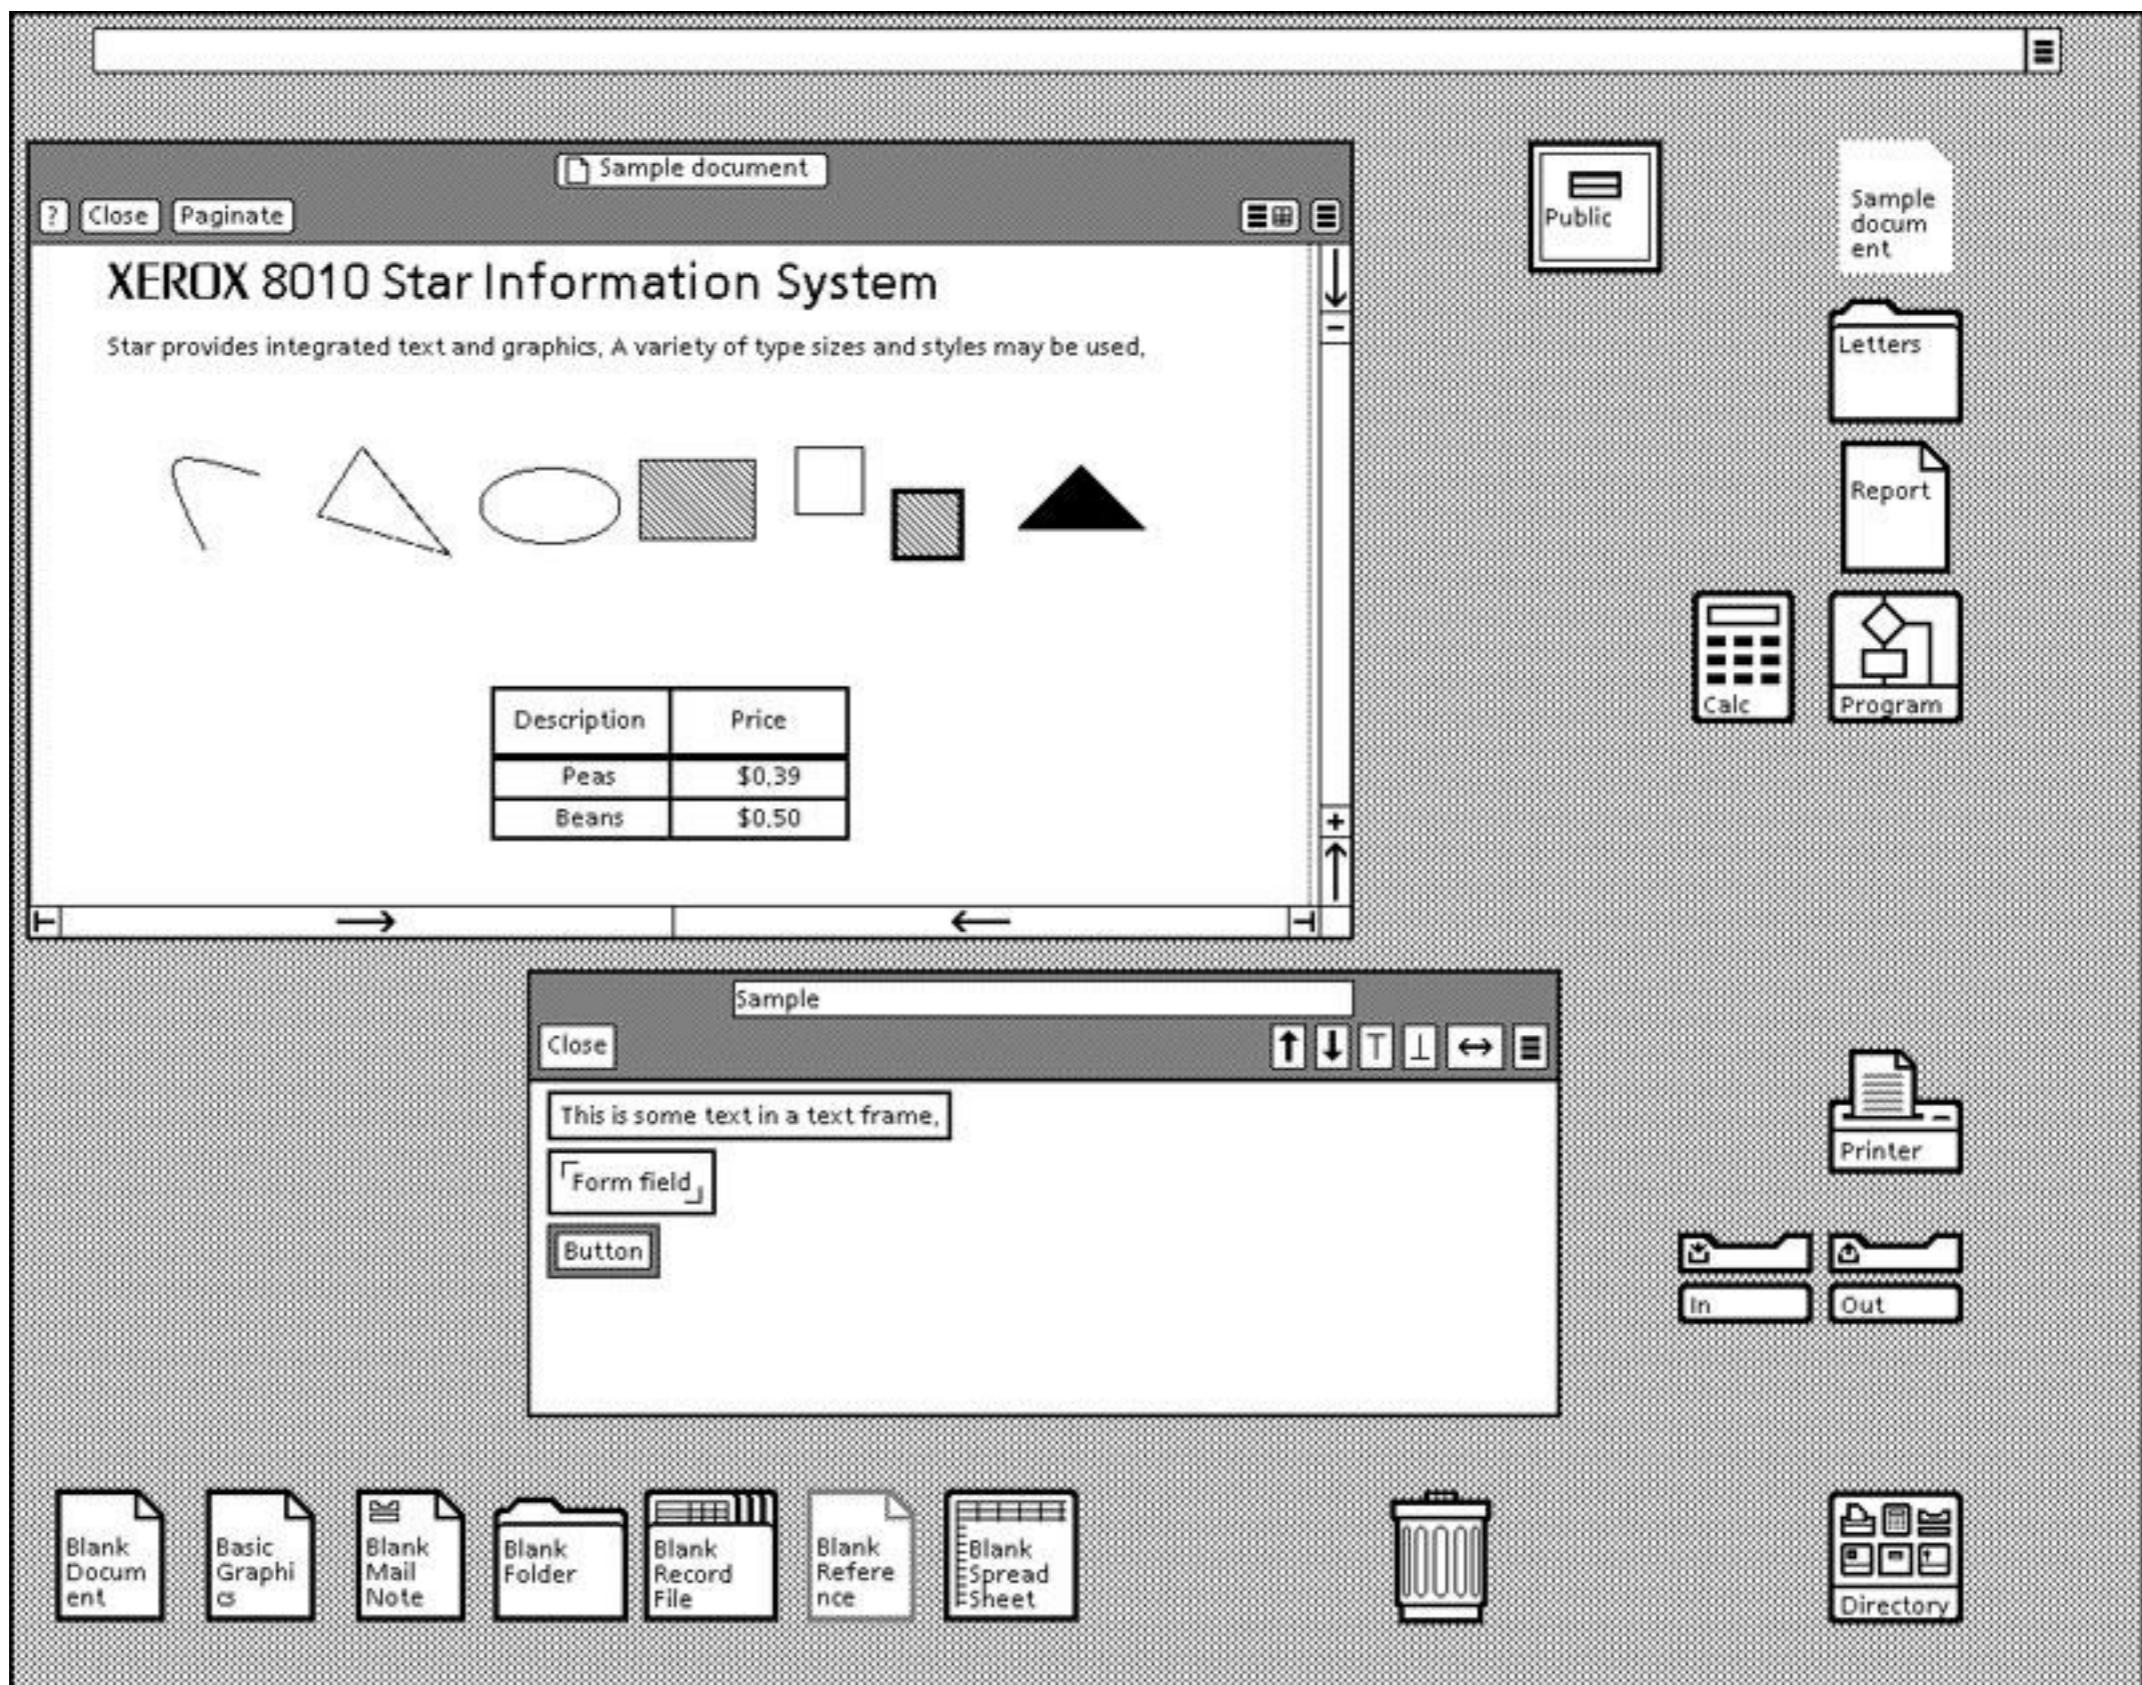

Interaction Design

Interaction Design

How the user accomplishes tasks.

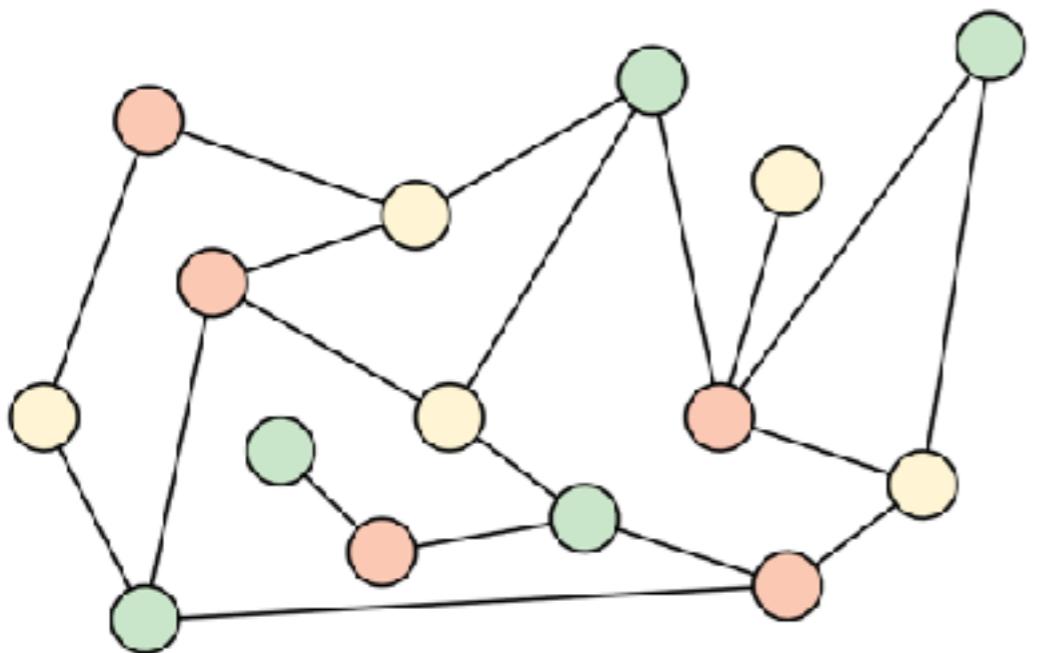

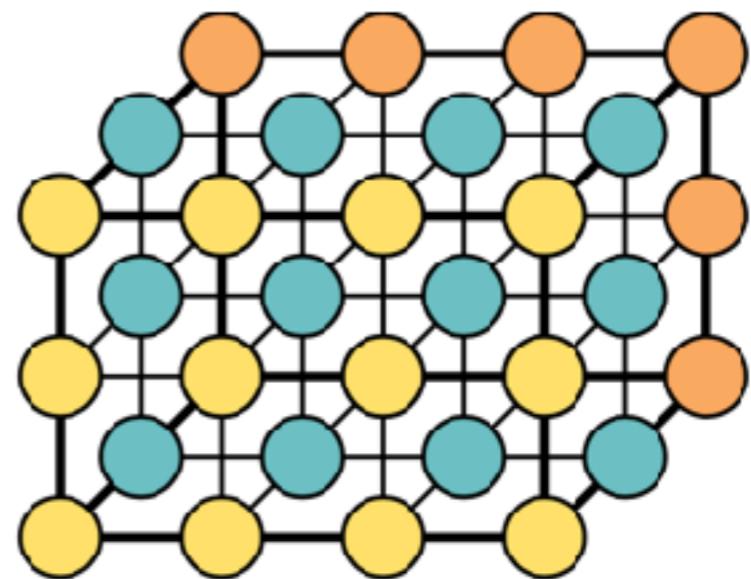

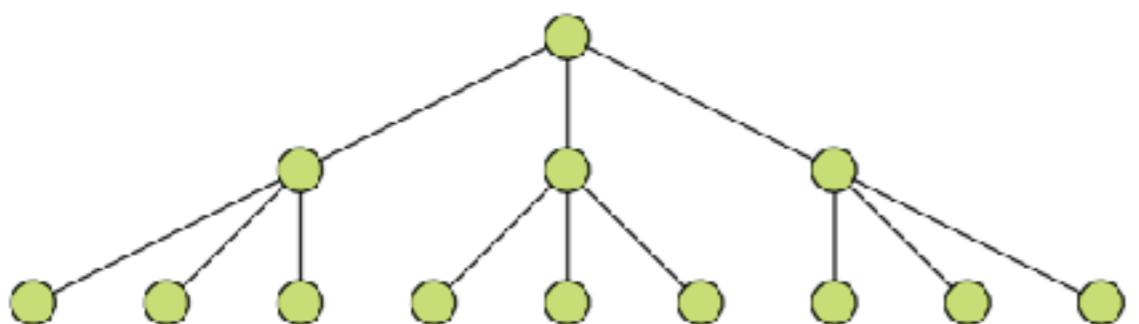

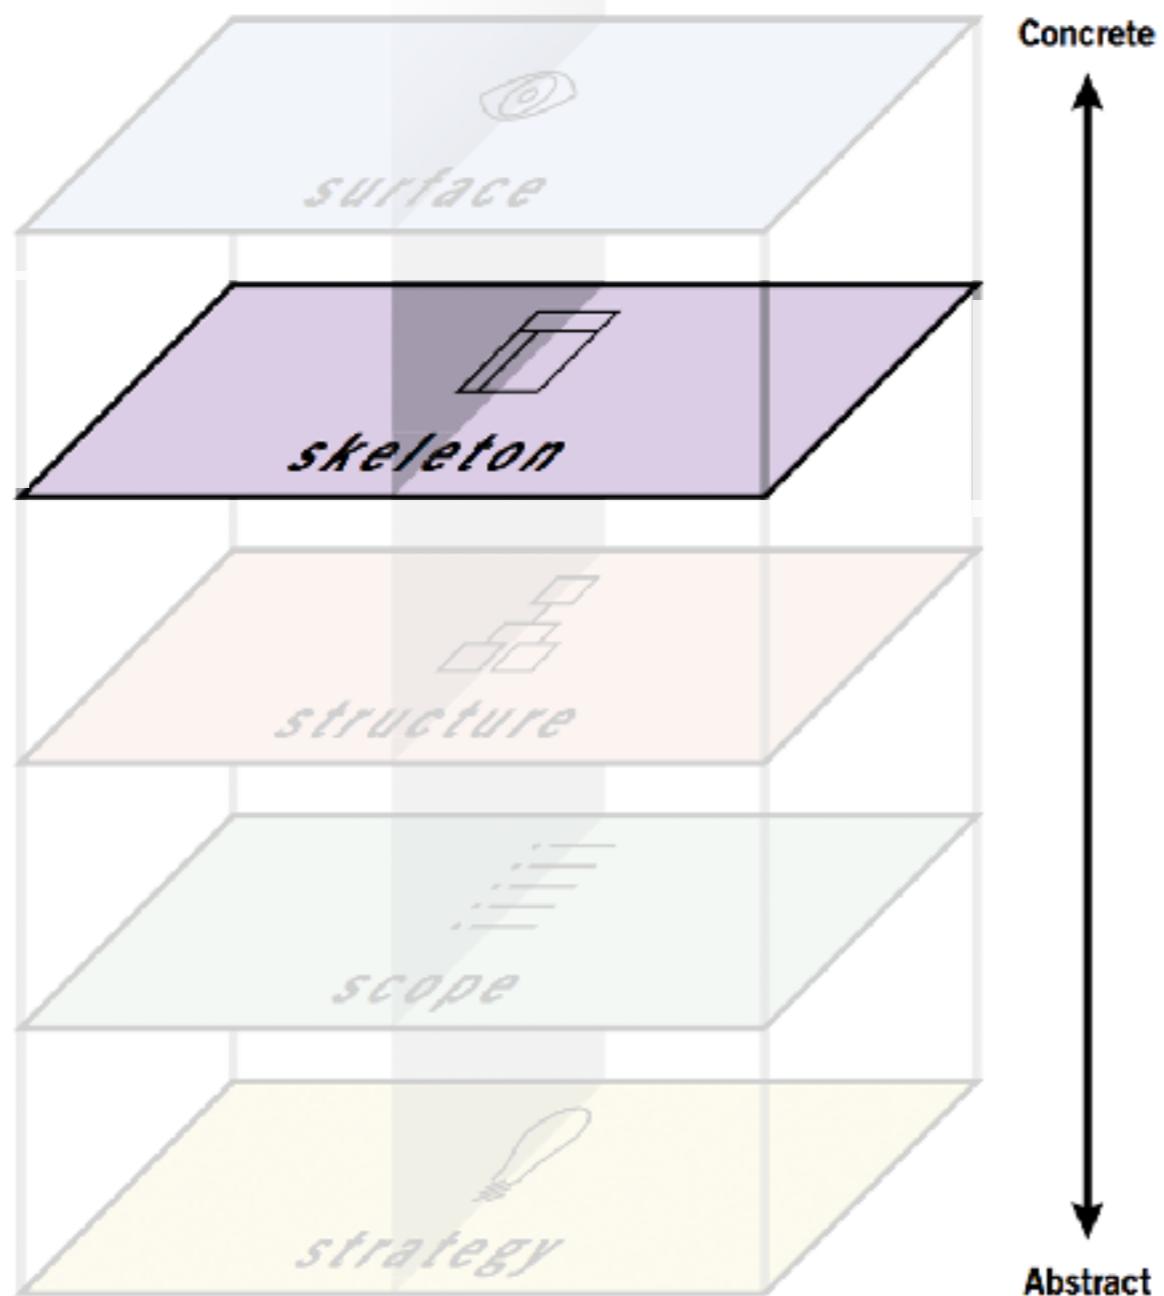

Information Architecture

Information Architecture

How we structure our content so that people can understand, find, and use it.

product as functionality | product as information

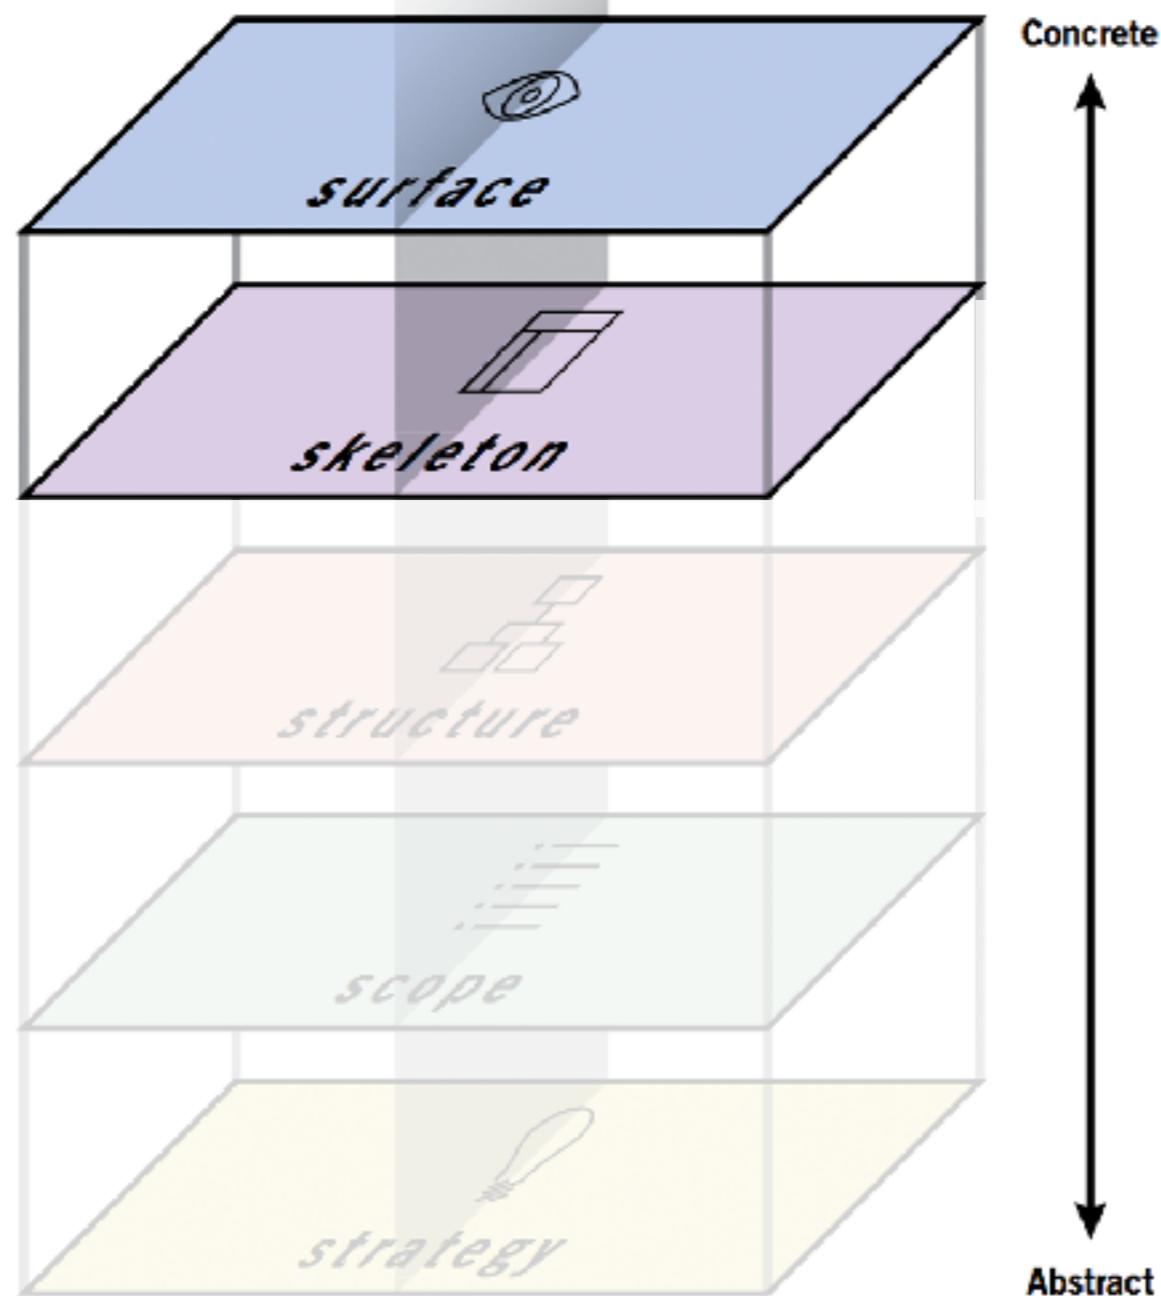

Skeleton

What form will our functionality and content take?

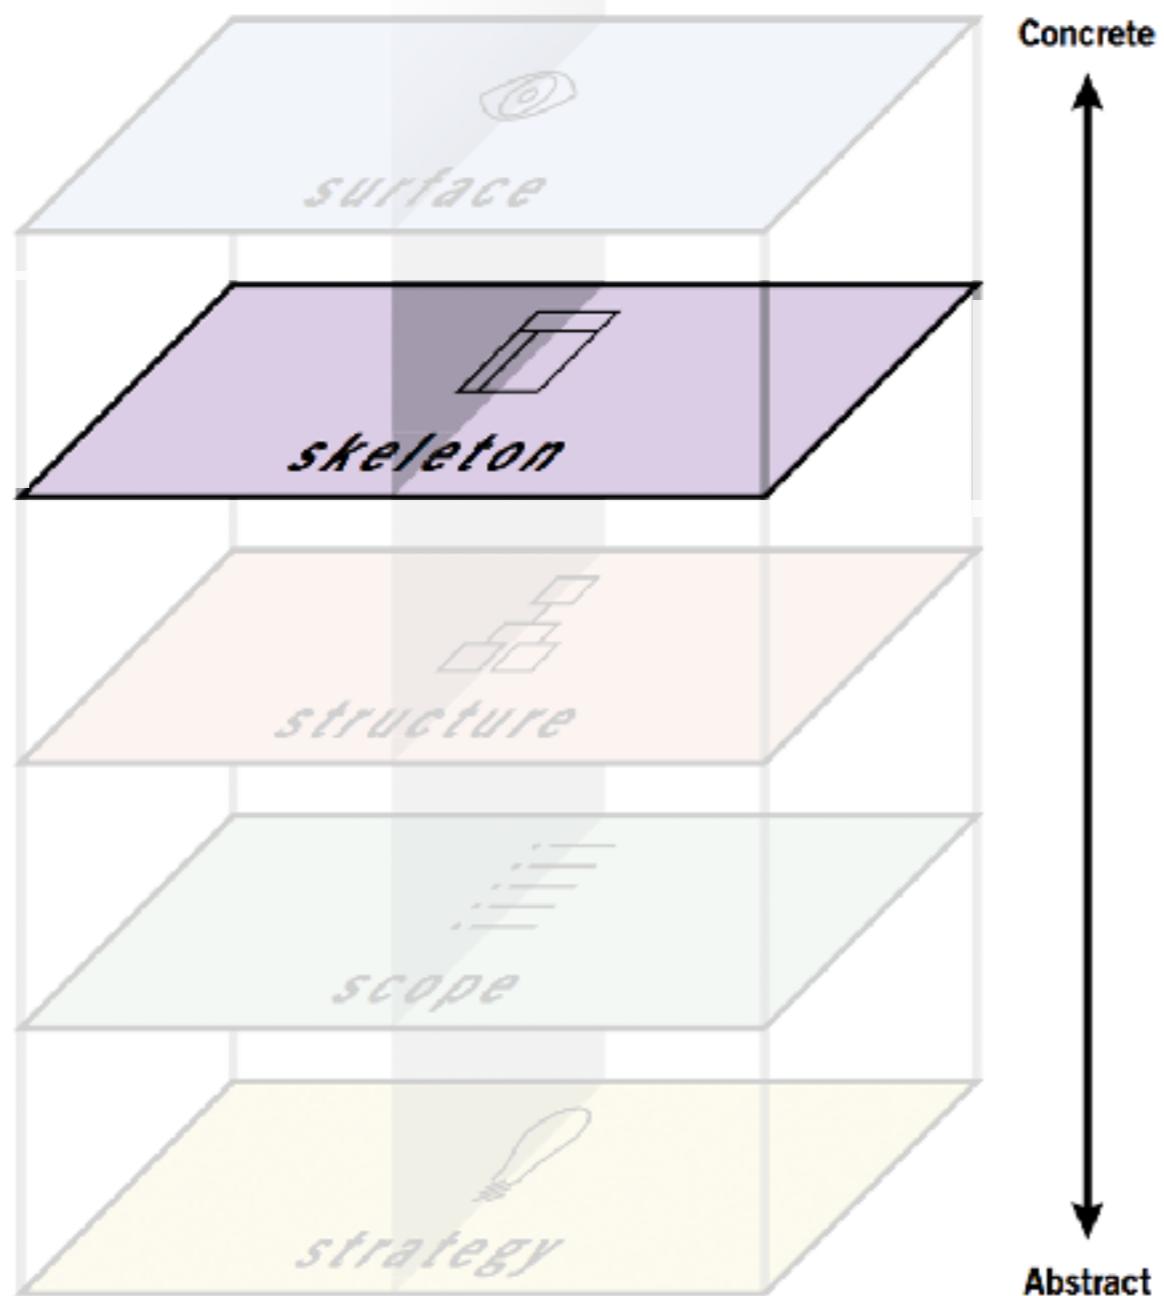

~~Skeleton~~

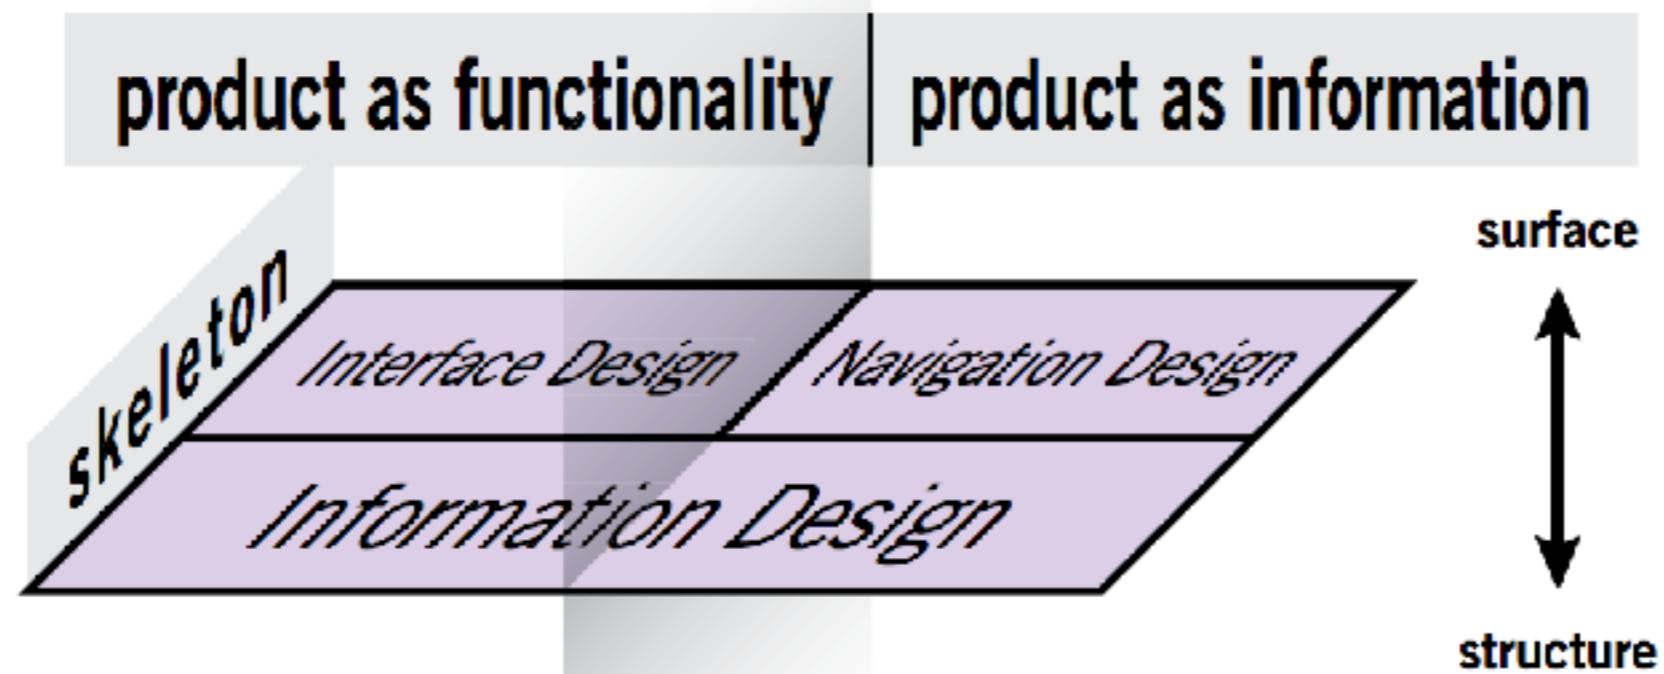

Interface design

product as functionality | product as information

product as functionality | product as information

Interface Design

- Buttons, fields, Interface components
- Providing users with the ability to do things

Navigation Design

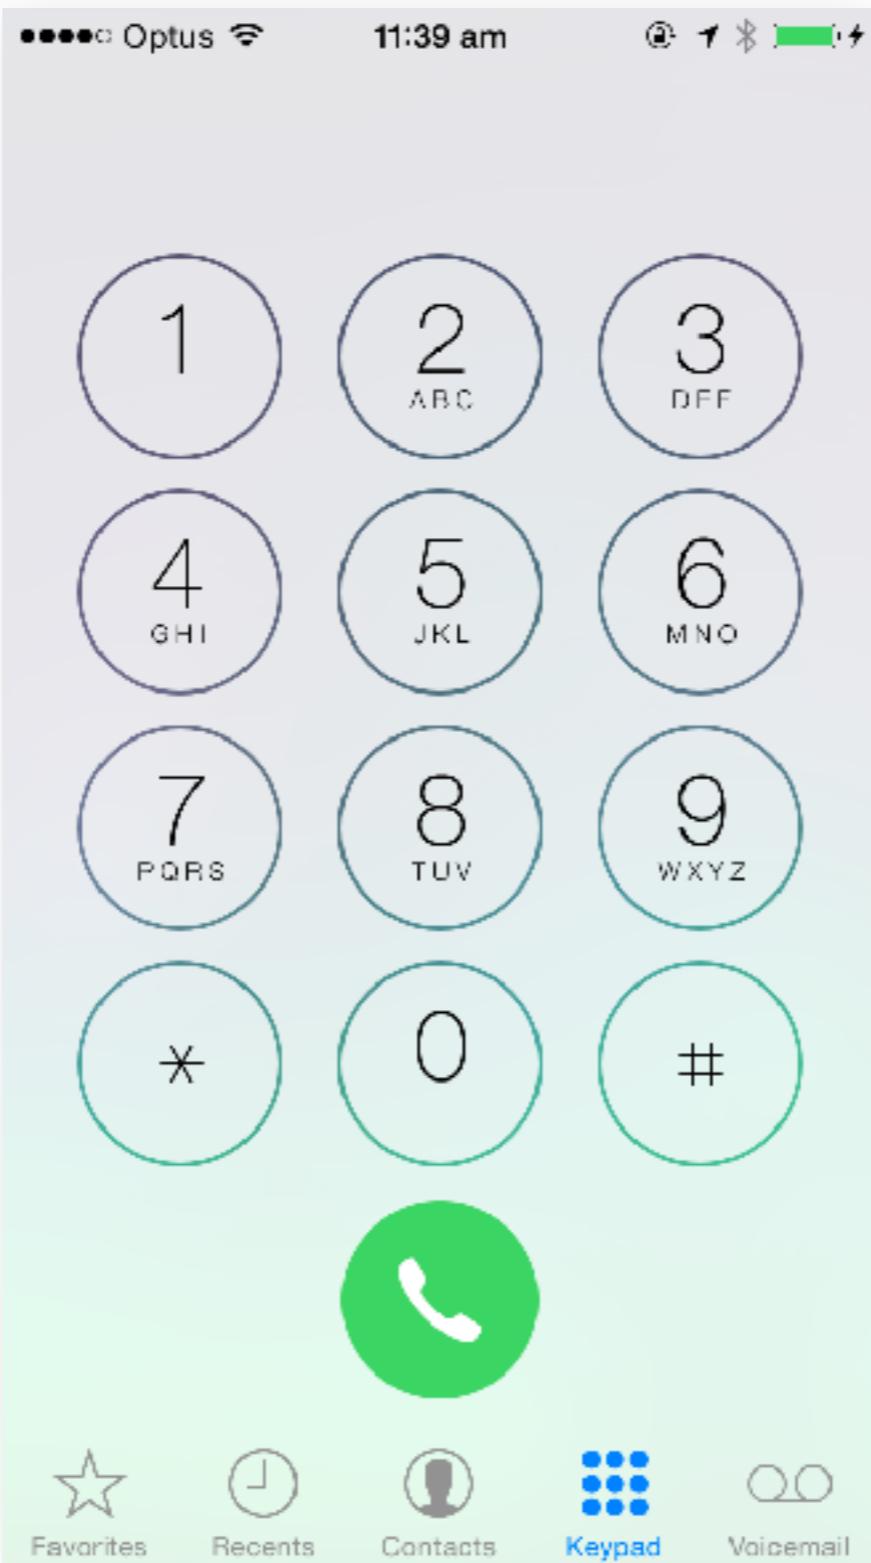

- Presenting information spaces, and how we move between them.
- Providing users with the ability to go places.

Information Design

- The presentation of information for effective communication
- Crosses between task oriented functionality and information oriented systems

Conventions & Metaphors

Metaphors

Submit

Interface Design

Interface Design

Selecting and arranging the right interface elements for the user to able to easily accomplish a given task.

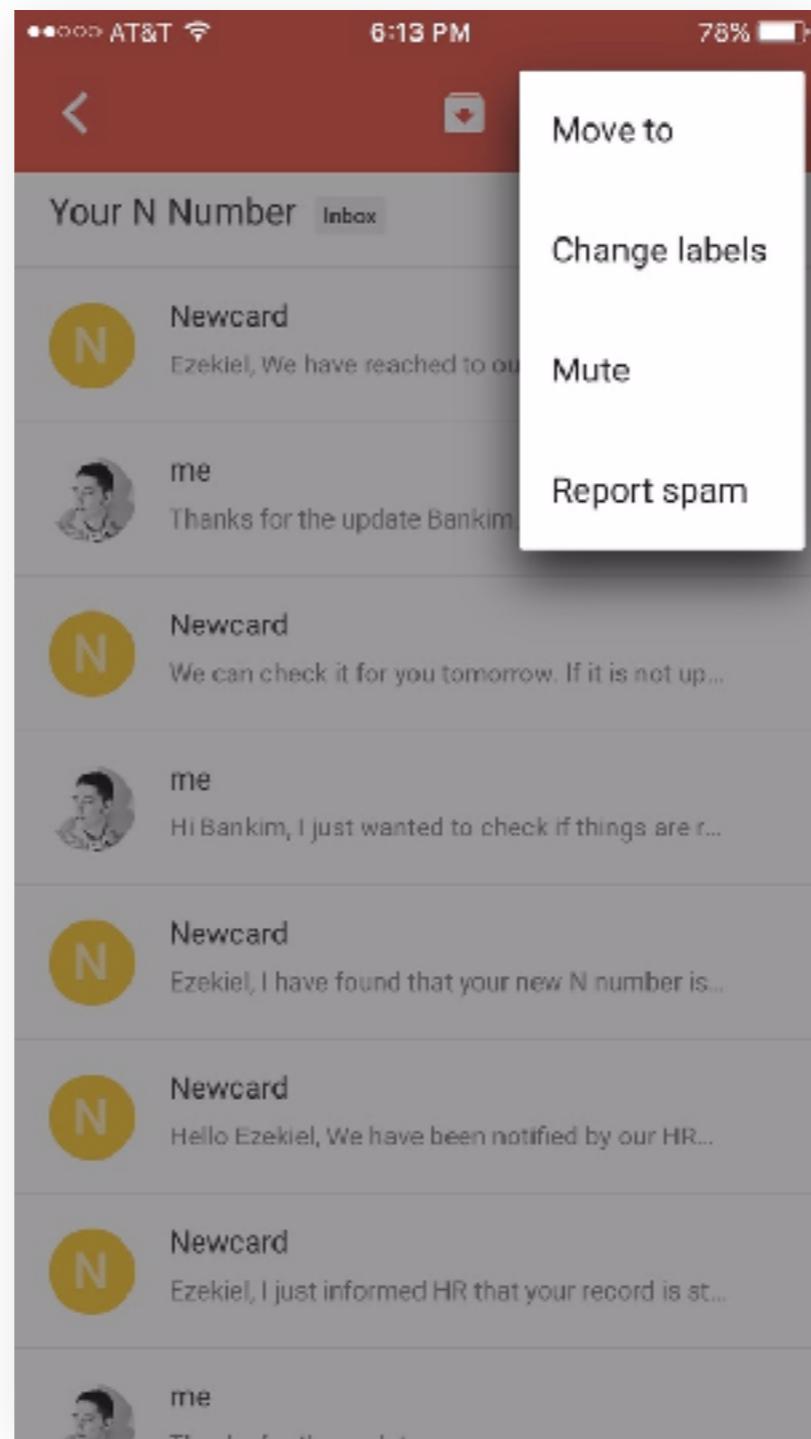

Primary Use Cases
vs
Edge Cases

Progressive Disclosure

Progressive Disclosure

What are we presenting to the user, when, and why?

Navigation Design

Navigation design needs to accomplish...

- Providing a means for getting from one section of the site/app to another.

Navigation design needs to accomplish...

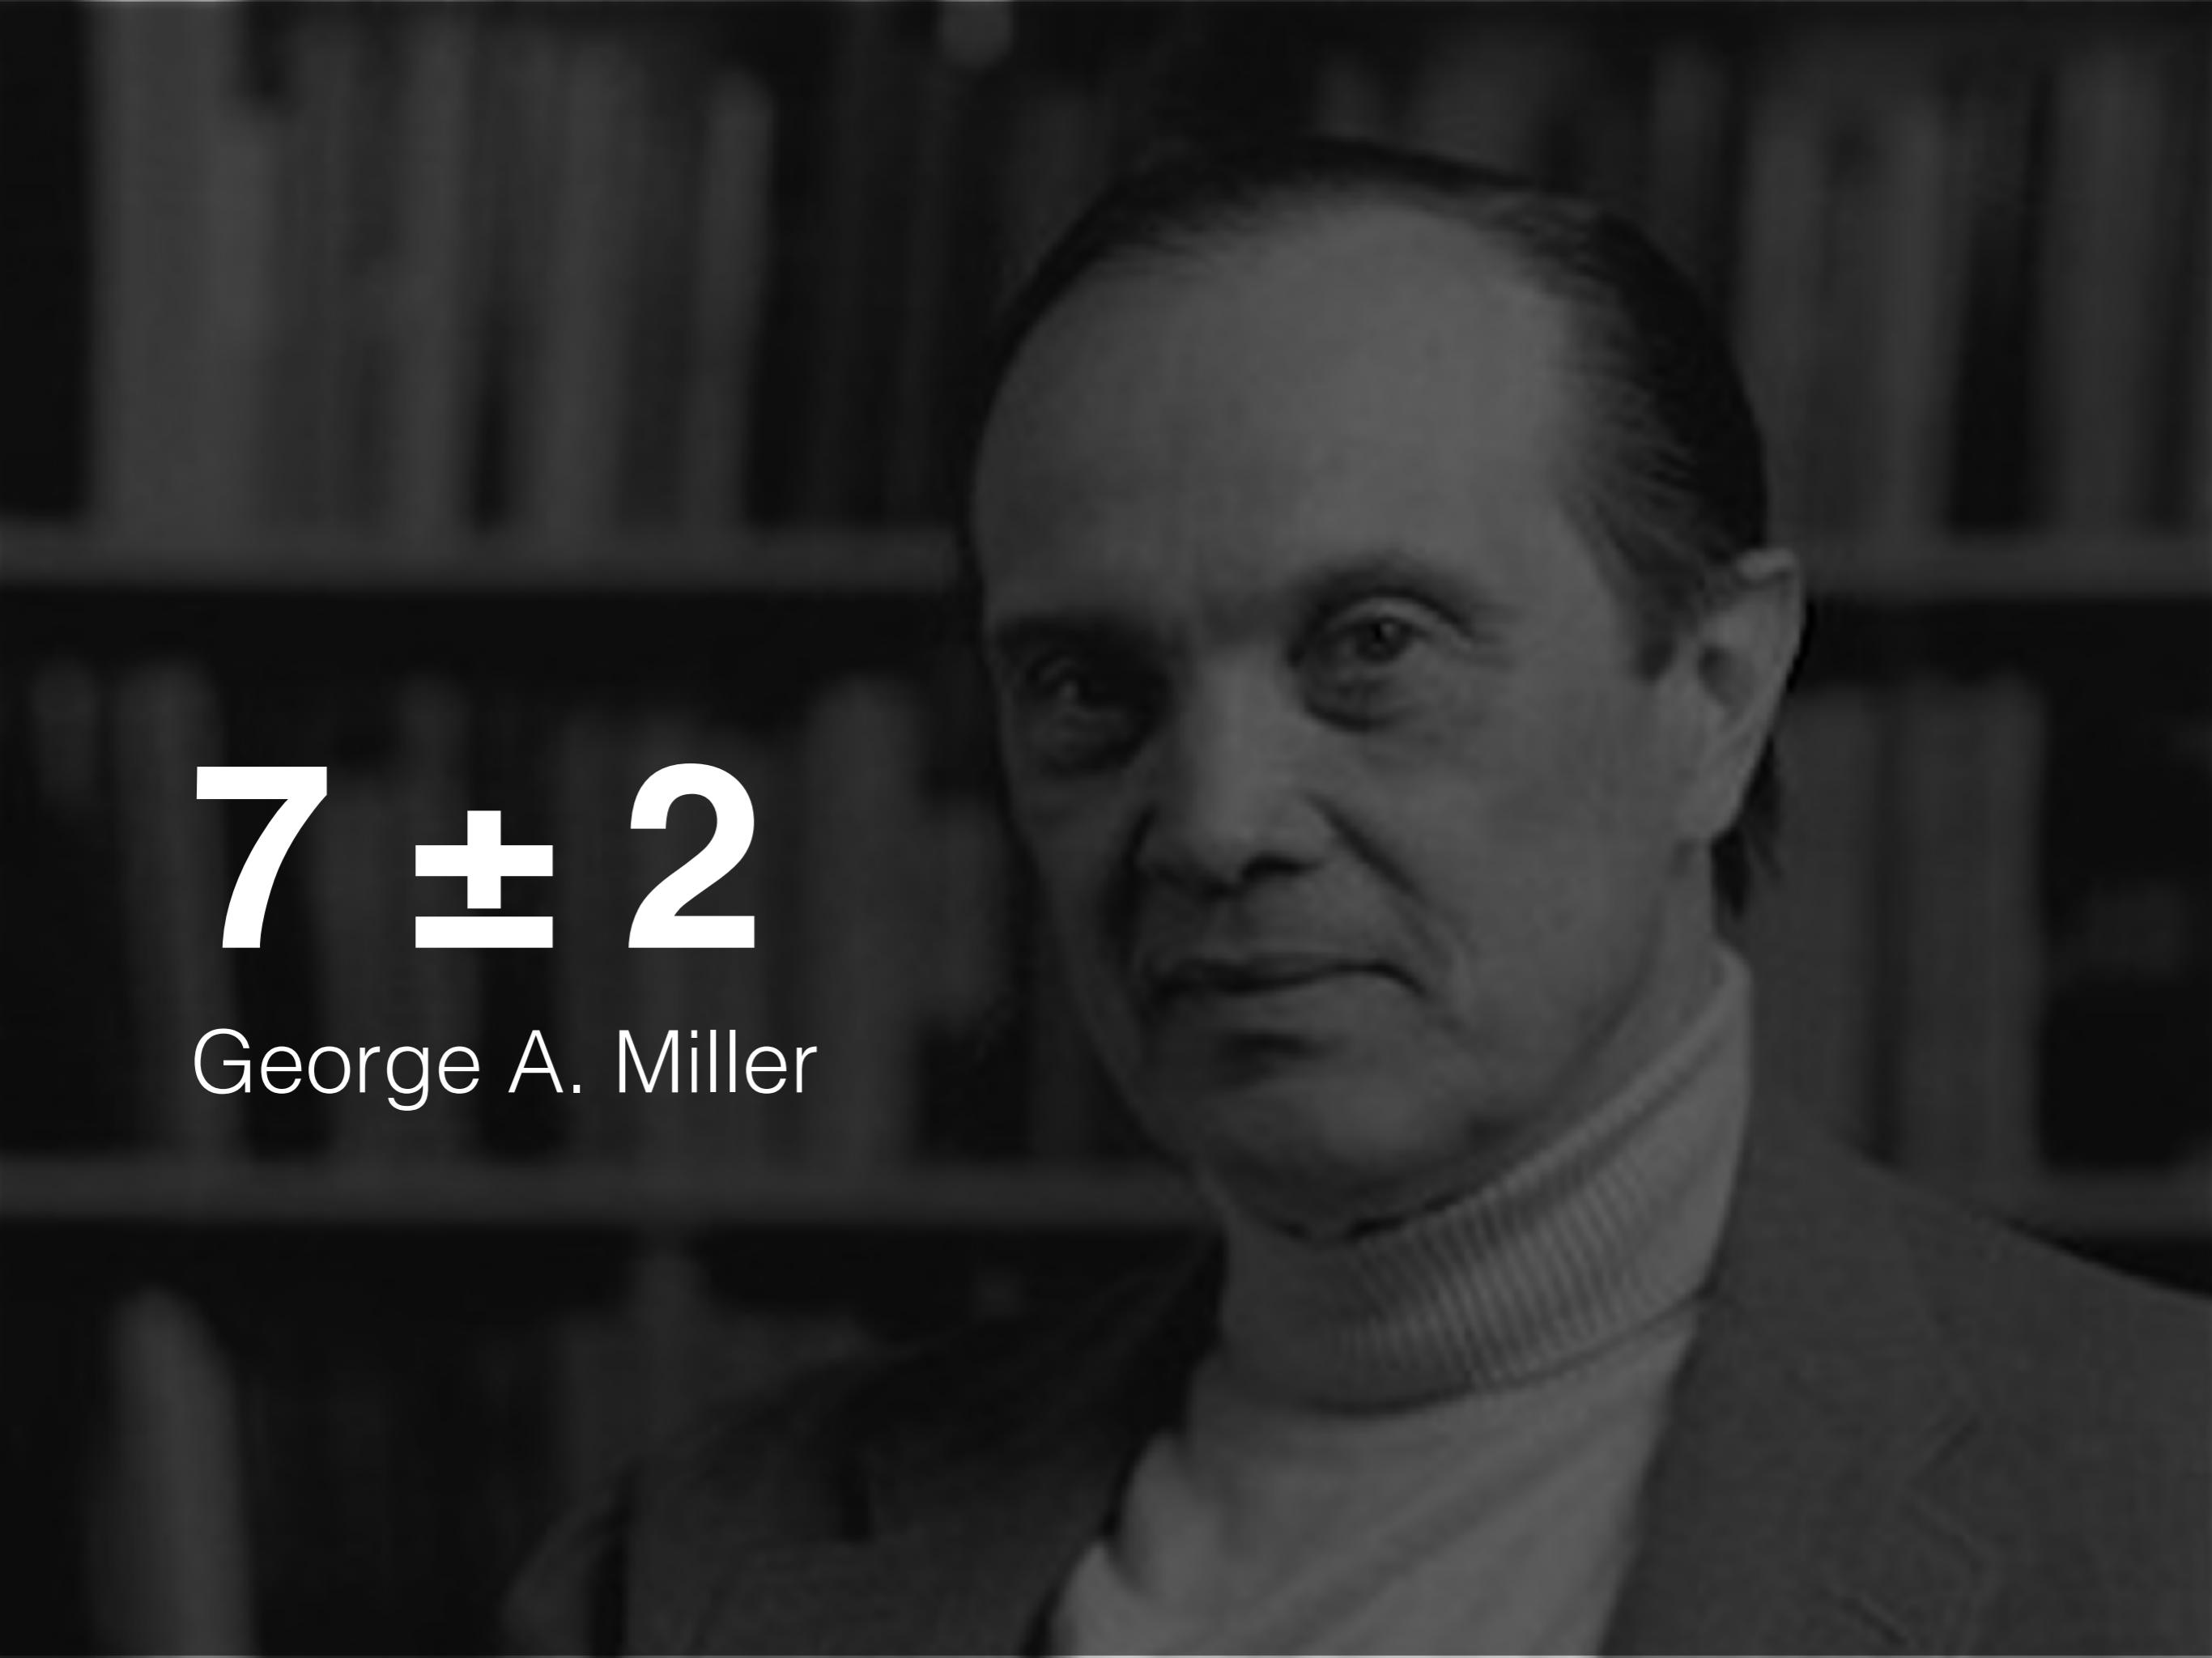

- Providing a means for getting from one section of the site/app to another.
- Communicate the relationship between the elements it contains.

Navigation design needs to accomplish...

- Providing a means for getting from one section of the site/app to another.
- Communicate the relationship between the elements it contains.
- Communicate the relationship between its contents and the page the user is currently viewing.

Establishing Information Spaces

where am I, and where can I go?

7 ± 2

Locations

[Full Map](#)

- A** Initially Opened Pin is always the nearest location. Only one pin is Opened at a time.
 - B** Tapping on any pin changes it to the Opened Pin, and centers the pin in the map window.
 - C** Tap or tap+drag to maximize/slide up the List View.
 - D** Tapping Opened Pin goes to that location's List View Open.

Locations

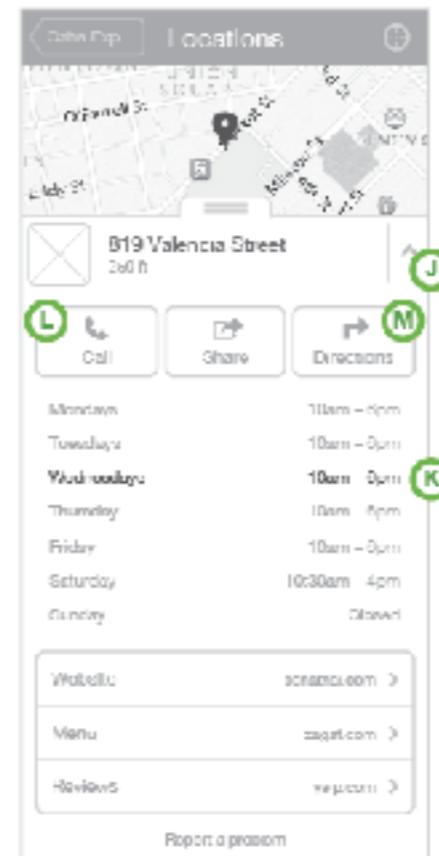

List View Collapsing

- E** Tapping any address in the list moves the map to center that location's pin.
 - F** Opened Pin closes in this view.
 - G** List window is scrollable. Height is constrained.
 - H** Dragging the list window's gripper down collapses it back to Full Map view. Hit target should be a little larger than gripper's appearance.
 - I** Tapping any down-arrow moves the address to top of list, slides open the List View Open screen in a drawer below the address, and hides the rest of the addresses in the list.

Locations

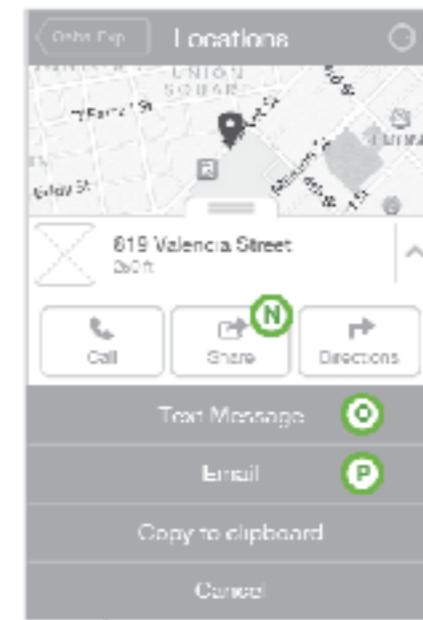

List View Open

- J Tap to close List View Open, back to List View Collapsed view.
 - K Today is highlighted.
 - L Dial opens Phone app and dials location.
 - M Directions opens Maps app, preferably with Directions shown.

Locations

List View Open Share Popup

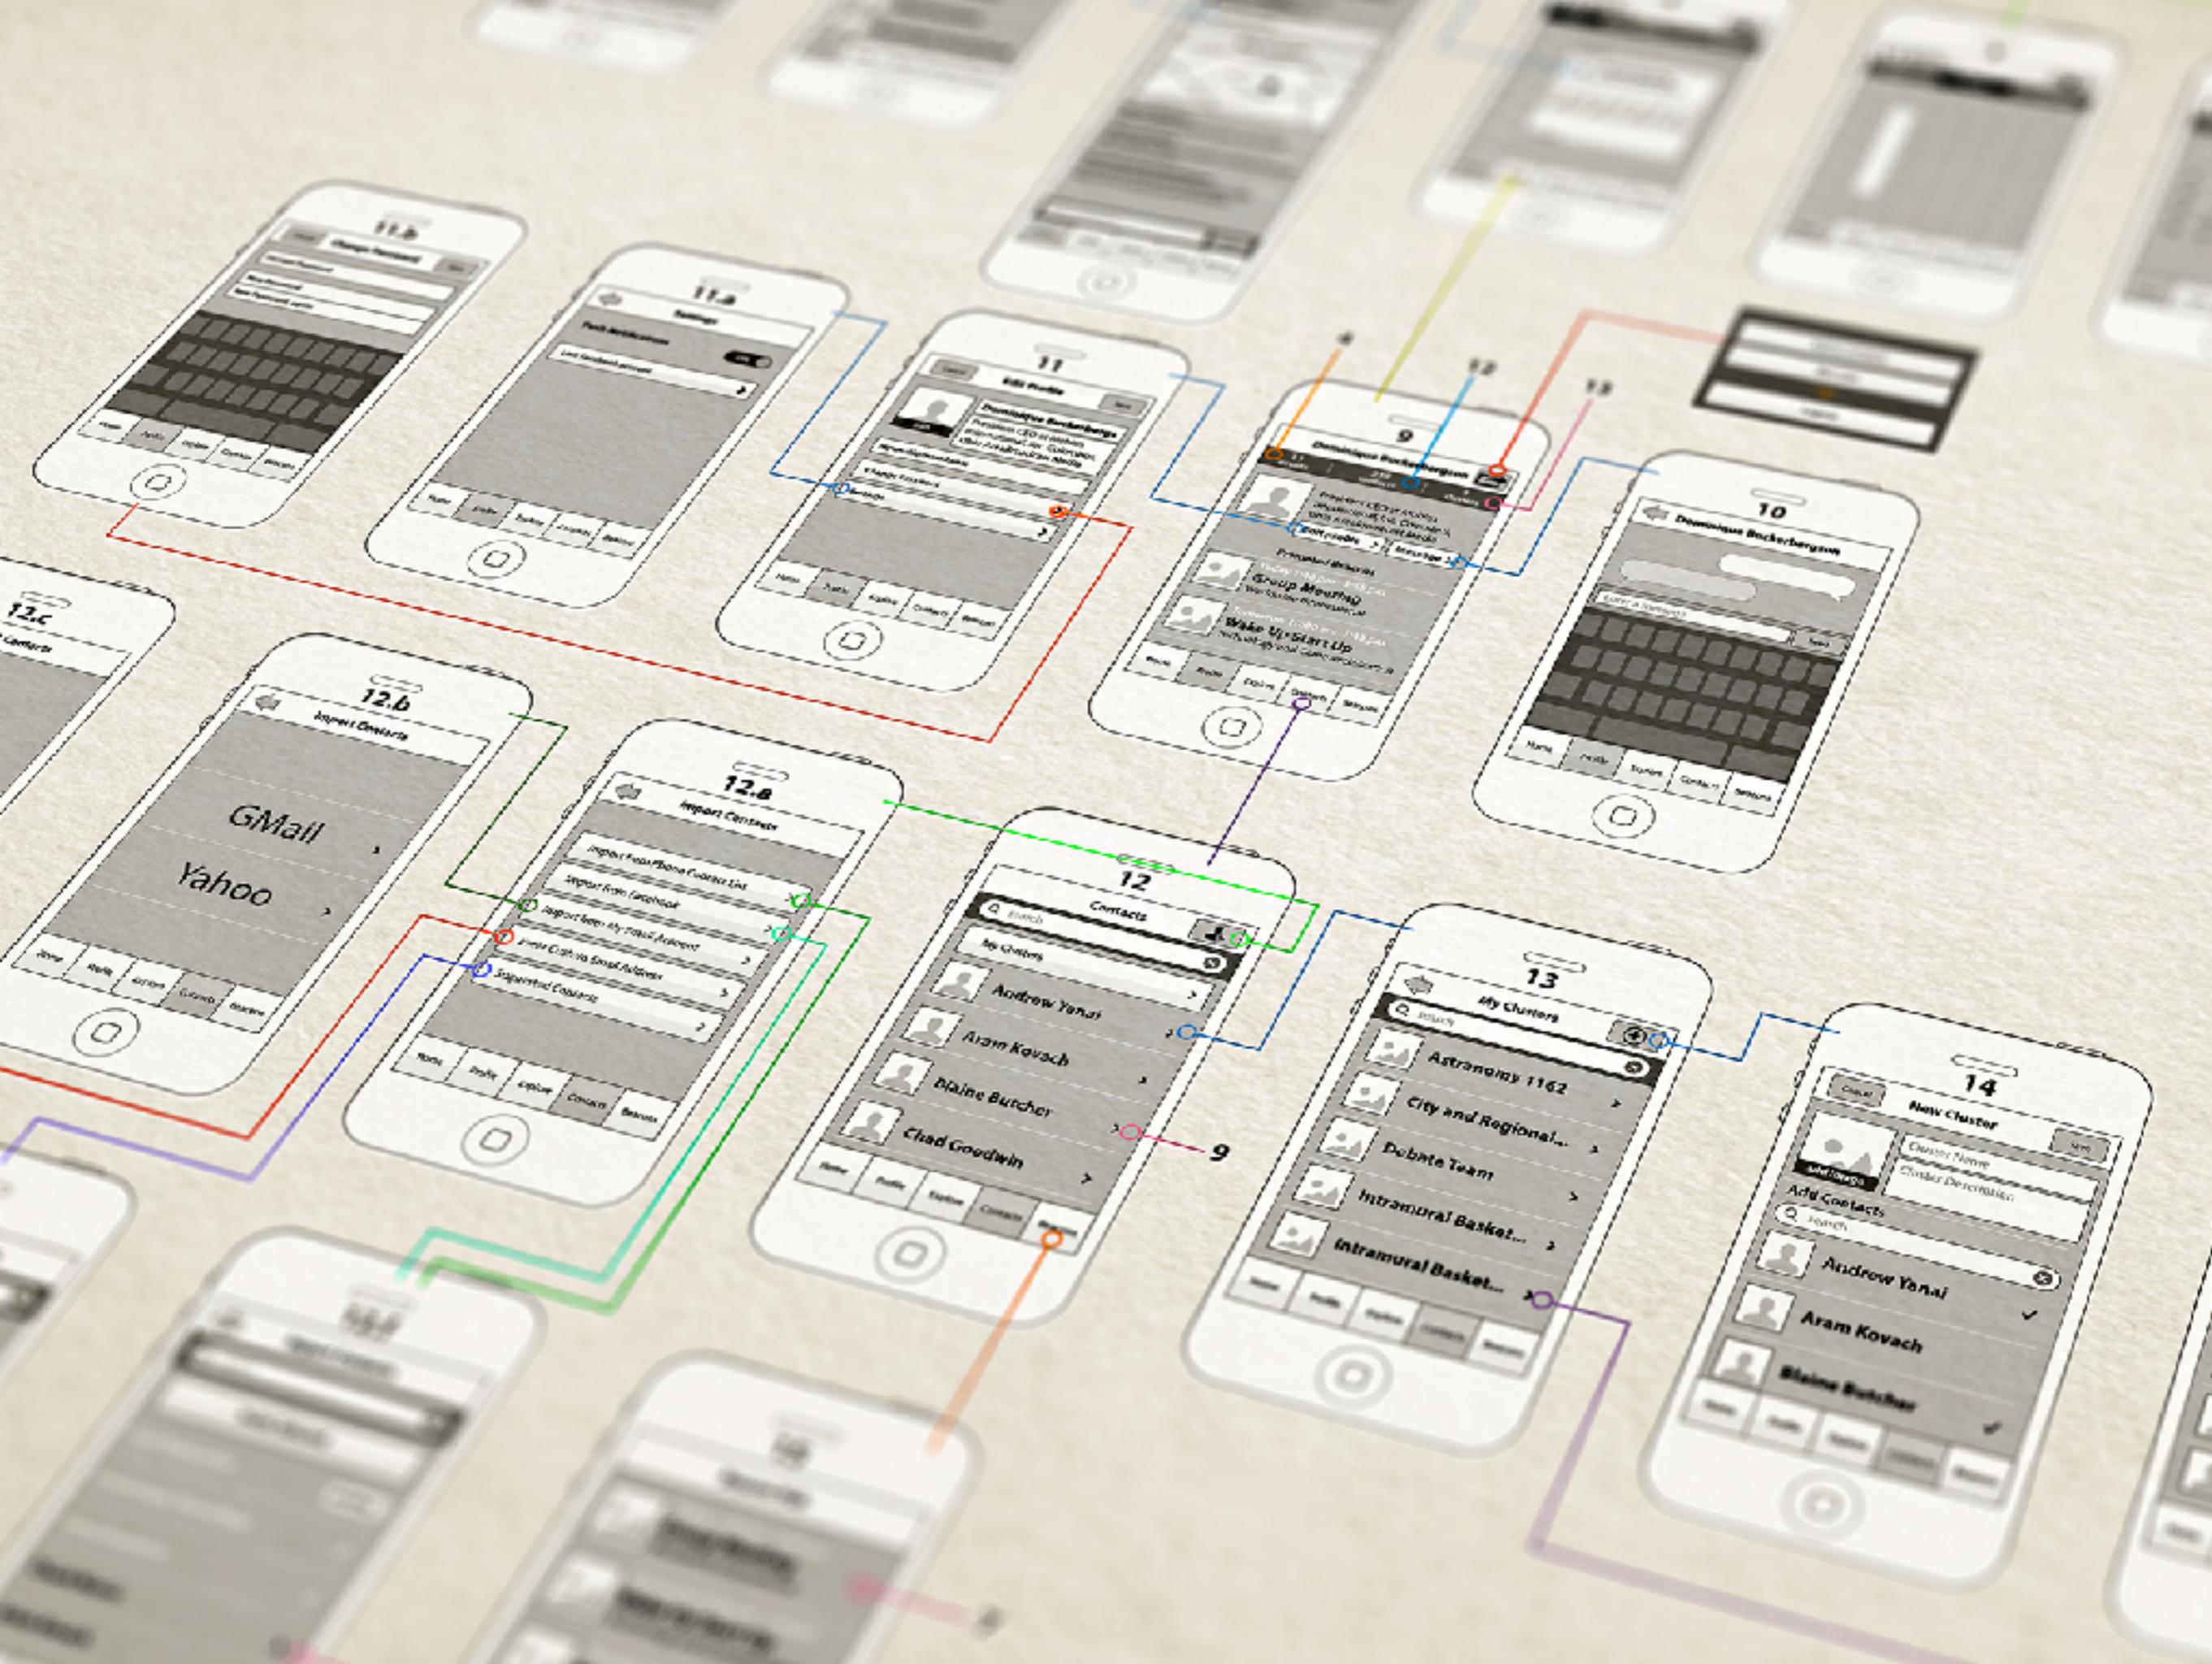

- N** Share slides up the overlay, nailed to bottom of screen.
 - O** Text Message opens iOS Messages app with contextualized message e.g. "Meet me at Osha Express. Address, etc., link, etc."
 - P** Email opens iOS Mail app with contextualized message.

Locations

Current Location Options

- R** Moves map to center on user's position (no zoom). Keeps all merchant pins open, even if they are not viewable in the map window anymore.
 - S** Zooms out to show only one pin (nearest merchant location), plus user's position.

For Thursday:

- Project 1, Part 2: Completed strategy, scope, structure, and interface design.
- You're not required to present working code this week, but starting to prototype your experience throughout the design process is always a good idea.
- Simplify your scope as much as possible— We're looking for polished execution that supports your goals/strategy!
- Keeping pushing your class website forward.
